

Digital Schools resources guide

Digital Schools Resources

Digital Schools is a complete support package. From our review tool to our pupil programmes we've created a one stop shop so the messages are joined up and your budget is well spent. In this guide we've categorised them to help you identify which resources will help with different audiences.

Digital Excellence resources: Resources to promote your membership and your single point of contact for any online safety query, membership question or problem.

School resources: Lesson plans, policies and the other assets to help you deliver digital safety excellence in your school.

Parent resources: Resources that cover all the issues you may want to inform your parent community about. These include parent presentations, top tip sheets and our online parenting course.

Digital excellence resources

Resource	What it is	Where to find it
Support manager	A single point of contact to provide ongoing support whatever your online safety or membership question might be.	Email: sophie@parentzone.org.uk or call 020 7704 0415.
Digital Schools certificate and logo	The physical and electronic assets that demonstrate your commitment to digital safety.	Your certificate is included in your membership pack. The electronic logo to place on your website is located in our members' area <i>getting started</i> folder.
School newsletter	Updates to keep you informed about forthcoming training, new resources and emerging issues in the digital world.	Emailed to you every month by the Parent Zone team.

Digital Schools Resources

School resources

Policy templates	Set of Ofsted compliant policies for you to personalise.	Located in our members' area policies and procedures folder.
Senior leadership briefings	In-depth briefings written by subject experts covering emerging and complex issues.	Located in our members' area senior leadership briefings folder.
Self-review tool	A comprehensive checklist to ensure all your policies are in place to meet Ofsted/ISI requirements.	You'll be posted a physical copy of the checklist. It's also located in our members' area policies and procedures folder.
Lesson plans	From learning about resilience to mental health, these plans are tailored to all key stages.	Located in our members' area lesson plans folder.
Posters, handouts and presentations	From porn to celebrating internet safety day, these resources help your school remain informed about issues that are either caused or amplified by the internet.	Located in our members' area resource library.
Digital Safeguarding training course	A course that introduces teachers to their online safeguarding responsibilities, in line with the DFE's <i>Keeping Children Safe In Education guidance</i> .	Located in our members' area online training folder.

Digital Schools Resources

Parent resources

<p>Online course</p>	<p>A structured course that helps parents understand online risk, the use of filters and tools, and how to develop effective digital parenting skills.</p>	<p>Located in our members' area parenting course folder.</p>
<p>Vodafone Digital Parenting Magazine</p>	<p>Our free magazine to use and share with parents. Order as many copies of our latest 2016 edition as you need.</p>	<p>Copies can be pre-ordered in our members' area.</p>
<p>Parent handouts, presentations and top tips</p>	<p>From Minecraft to porn, we've prepared presentations and advice handouts to cover all of the issues parents need to know about.</p>	<p>Located in our members' area resource library.</p>

Pupil Programmes

<p>DigiDog</p>	<p><i>For younger pupils:</i></p> <p>DigiDog brings the concepts of safety and resilience to life for younger pupils. You'll receive your own DigiDog and a set of activities to engage and enthuse your pupils.</p>
<p>DigiKnow</p>	<p><i>Test their knowledge:</i></p> <p>For older pupils who may already think they are on top of their digital lives. DigiKnow is an effective way to test their knowledge and have fun. With quiz questions and wristbands you'll find out which gaps in their knowledge you need to plug. Then you can choose the relevant resource to help you do so.</p>
