

Autolock

Is your device wide open or have you locked the door?

TOP TIP:

Autolock means your device can only be opened with a password. Turn it on!

Passwords

Are they doing their job or are they weaker than a chocolate tea pot?

TOP TIP:

A strong password needs upper and lower case letters and additional characters like !%* Keep them different for every site.

Privacy

Is your stuff private or are you sharing more than Kim Kardashian?

TOP TIP:

Privacy settings change regularly. Check them every term at least!

Location

Are you sharing your location with the world or do you know how to be a digital ghost?

TOP TIP:

Only leave location based services on when you need them. The rest of the time – turn them off!

Blocking

Could you block a bully or would you be trapped with a troll?

TOP TIP:

People won't be told you've blocked them so don't worry the person making you feel bad will find out.

Reporting

Do you know which buttons to press or would you panic in a crisis?

TOP TIP:

You can report to your parents, your teacher or the platform you're using. You have lots of ways to get help.
